Juniper Table Catering Co.

Incident Report Procedure

An incident is any injury, illness, property damage, vehicle accident, or safety complaint at an event, at the kitchen, or in transit - no matter how minor it seems at the time.

1. Immediate Steps

1. Care first. Attend to anyone hurt. Call 911 for anything beyond basic first aid - never wait to see if it gets better.

2. Notify the Event Captain immediately. If the Captain is the one involved, notify the Operations Manager directly.

3. Make the scene safe (clear the spill, move the crowd, stop the equipment) and, if it is safe to do so, photograph the scene before cleanup.

2. The Report - Form IR-1

Every incident is documented on Form IR-1, our standard incident report form, kept in the event binder and the van glove box.

The Event Captain completes Form IR-1 and submits it to the Operations Manager before the end of the same shift. A report written from memory the next day is a late report.

The form records: what happened, who was involved, any witnesses, first aid given, and photographs taken. Facts only - no guesses about fault.

3. Follow-Up

The Operations Manager reviews every Form IR-1 within 2 business days and contacts anyone involved who needs follow-up.

Staff are never disciplined for reporting an incident promptly. Late or missing reports are a conduct issue under the Employee Handbook.
